Ekahau Analyzer + Sidekick 2

Instant Insights. Actionable Reports. Confident Installs.

Why Integrators Need Better Wi-Fi Tools

Legacy survey apps are slow, miss key metrics, and leave you second-guessing the fix. Sidekick 2 pairs with Ekahau apps to turn hours of trial-and-error into minutes of clarity.

What Ekahau Analyzer + Sidekick 2 Delivers

Fast, one-pass testing 50 sweeps/sec spectrum capture—plug in, fix in minutes

Tri-band accuracy Four enterprise radios cover 2.4 / 5 / 6 GHz in one sweep

Pass / fail heat-map Instant red-green view of trouble spots

Deep metrics Signal, SNR, channel quality, roaming performance in one screen

Interference detection Flags Wi-Fi & non-Wi-Fi noise sources you can't see otherwise

Built-in speed test One tap proves throughput to the client

Live airtime insights Real-time congestion & interferers—watch fixes take effect

Survey + LiDAR floor mapping Create floor plans on-site when none exist

Optimization reports SpecOp engineers turn survey data into a step-by-step tune-up

All-day battery, USB-C quick-charge Work a full shift without swapping gear
